[**Objective**]: Detail-oriented Full Stack Developer with a passion for crafting scalable and efficient code. Seeking a role where I can apply my skills in full-stack development to drive innovation and improve overall system functionality.

[**Professional Summary**]: Accomplished Full Stack Developer with a proven track record of delivering end-to-end solutions, combining expertise in front-end frameworks like React and Next.js with back-end proficiency in Node.js and ColdFusion. Adept at optimizing application performance and ensuring seamless user experiences through innovative coding and problem-solving.

EXPERIENCE

2023 – Present (2 years 3 months)

Product Developer | Benchmark Gensuite | Bangalore, KA

In my recent position, I played a key role in DevOps, overseeing the maintenance of the code release engine, managing code file comparison services across multiple servers, and orchestrating GitLab releases and pipelines. Notably, I made a significant contribution to the development of a Node.js-based file comparison service. Additionally, I constructed an outage application using React.js to efficiently set applications/business apps to outage status. I actively participated in troubleshooting customer application errors and resolving timeout issues.

2022 – 2023

Product Developer Associate | Benchmark Gensuite | Bangalore, KA

In my role as a Product Developer Associate, I have taken charge of constructing new features for the Error Reporting Application. Additionally, I have spearheaded the development and ownership of the Asset Management Application, which is pivotal for internal auditing. Currently, I am actively engaged in managing this application. Moreover, I have expertise in developing PowerShell scripts to facilitate seamless data interchange between two platforms.

August 2021 – March 2022

Product Developer Trainee | Benchmark Gensuite | Bangalore, KA

As a Product Developer Trainee, I successfully completed all training courses and promptly began contributing by developing internal utilities to support the team. I actively participated in enhancing framework components, addressing bug fixes for the Error Reporting application, and orchestrating a significant overhaul of a major internal application.

SKILLS

- ColdFusion/Lucee
- Python/Django
- Microsoft SQL/ MySQL
- HTML/CSS/JS/jQuery
- Linux/Windows
- Reactjs/Nextjs/Nodejs
- Bash/PowerShell Scripts
